A message from the CEO

Planet earth gains by far the best products for our daily life. For food flavoring, healthy life or even to color up various things. Humans have used the power of nature for thousands of years and we keep committed to the same. Where all of us get used to a fast moving environment and cheap prices, the past years have learned us this kind of convenience is build on weak construction.

We have achieved a stable situation for our partners and are investing time, energy and effort to even improve. The nature of our business is reliability throughout the whole cooperation.

Also this year we have been surprised by new and sudden situations of the world environment change, and so we have to react and find alternatives to keep your production without any interruption.

Natural is our passion - throughout any situation, we are here for you!

Sönke Koop

Managing Director

About nako naturals

passionate in natural ingredients

nako naturals group is major player in international natural raw material business with focus on plant extracts and plant based powders for nutraceutical and health industry, oleoresins and essential oils for flavor and fragrance in food, cosmetics and aroma therapy.

Headed by the office in North Germany nako naturals distribute to all European countries and beyond its borders. As distributor and importer, nako is connected to several countries. With own office in South India to ensure high quality in the entire supply chain.

20+

countries

Meanwhile we can offer products from the origins of more than 20 countries. Nowadays we concentrate to reduce transport and distance, the focus is moved to European productions where possible.

5

markets

Natural is our passion and our supplies go in at least 5 different markets
food - food supplement - pharma - feed - cosmetics and wherever natural and plant based raw materials are needed

1000+

product specifications

tailor made products are required from you and thereof we started early to think outside the box. With a strong network of partnering production facilities around the globe, we can quickly react on requirements, trends and regulations.

2

registered trademarks (EU)

This year we have achieved the first two registered trademarks as start of our nako brand strategy

nakoMIN® the natural vitamins line
nakoRALS® for natural trace elements and minerals

nako group information

Our company growth and success is beneficial for our partners, so we empower more resources for improvements in availability, quality and organisation.

We are glad to mention a few milestones and new achievements within the nako naturals group. Since 2022 we are glad to be appointed distributor of Olene Life Sciences Pvt. Ltd, India for their premium ingredient brands: Garlzac, MacOlene, Ginfort and BosNext. While with these clean label and well researched products we can improve our offering by these four products. Furthermore we estimate new business within the pharma and pharma-like industry, as especially MacOlene is developed for a specific health issue - wet AMD (eye issue). Read more on our website at MacOlene product.

Within our corporate strategy we decided to open an office in South India by early 2022. Our new office in Kerala will be focussing first on several quality aspects and supplier monitoring, while we integrate also other countries and our suppliers to monitor.

As market requirement we have been starting the process for IFS certification already end of 2021, due to the GFSI compliant requirement by our customers, we are changing our quality management system. After first internal audits we are looking forward to have certification audit in July. This step will even more improve the quality of our passion.

Milestones 2022

» Olene Distribution

Exclusivity and strong partnership

As strong partner we have been appointed by Olene Life Science Pvt. Ltd. as distributor for the German speaking market. Garlzac, MacOlene, BosNext and partially Ginfort premium ingredients.

» Our Indian office

As part of our strategy, we have founded nako naturals pvt. ltd. in South India, Ernakulam.

To ensure the highest quality within our supply chain, we will start during this year to establish a quality team in India.

» Trademarks

nako brand strategy is rolled out

After spending plenty of time into development of our own ingredients and brand strategy, we have achieved first two landmarks within this year and more follow soon.

» Certifications

Key certification process

Within the growth we react to market requirements and will change our inhouse quality management to a GFSI compliant certification by July 2022. Read more soon.

Our businesses

Health & Nutrition

Extracts & Powders

Nutraceutical plant extracts with tailor made active ingredients, headed up by our nako branded ingredients and natural passion.

Superfood powders in conventional and organic quality are available from stock.

Our 100% quality focus is key for our success and our brilliant customer relationships.

Flavors & Fragrances

Essential Oils, Oils & Oleoresins

nako group is well experienced in flavors & fragrances with a worldwide network of partners for production in the origin of plants and herbs.

We are key distributor of Mustard Essential Oil for food & pharma industry, growing markets of Mint Oils from our small distillery in South India. Pink Pepper Oil made in Brazil and all in compliance with our quality aspects and ethical philosophy.

Also are in cold pressed Oils like Lime, Mandarin and more.

Our trademarks

registered trademarks

nakoMIN®

Our nakoMIN® product series is releasing natural power of natural vitamins made from the best available sources. We continue to reach out the highest values at the still cleanest production methods. All products are free of additives and only use the best solvents (Ethanol and/or Water).

So far we have released 50% of our planned products (3 of 6) to the market.

nakoRALS®

The cleanest possible natural minerals and trace elements combined in nakoRALS® product series. We are continue to work on releasing more and also this brand will come up with a complete premix in 2023.

Now we are able to offer four of our planned 10 products.

Sustainability & Ethics

Our planet and people are the important element for our today and future business and stability

As just one part in the supply chain from field to the dish or final product, we have been focussing ever on reasonable and sustainable behaviour in what we do. Nowadays we are member of SEDEX and rated by Ecovadis, to monitor also ourselves and get feedback from experts on how we do.

This is challenging us even more and therefore we focus on further improvements within our company group and beyond. We take our partners onto the journey and make them part of a better business behaviour.

We are just entering the journey and we are happy to share with you the information, for small to medium sized companies it has been always more difficult to move up to a the higher levels of documentation, certification and processes. However, our strong believe, the passion and our behaviour is not binded to our company size or wellbeing and so we know all day, the way we work is by definition what we all understand as sustainable.

Meanwhile we have implemented various steps for our suppliers to continue to cooperate with us, so we like to join also your journey for your corporate sustainability and you are welcome to ask for our ecovadis reports or share your questionnaire, code of conduct and other supporting documents.

We take it seriously, therefore your contact persons are the director Europe and director India for the both devisions or both as group contacts.

Don't hesitate to catch up with your daily contact to start the process

Health & Nutrition

100 %

CLEAN*

For all nako brand ingredients we can ensure the cleanest production methods and product composition. Only Ethanol and/or Water are used as solvents, no carrier and additives are used and the product is 100% clean.

*Is or can be also available on request for several other ingredients

100 %

ETO FREE DELIVERIES*

When ETO (Ethylenoxide) issues started to get official and distributed to the endcustomers, we reacted early and introduced our 3xETO test method for all dry ingredients *from Indian origin and those where raw material is used from India.

Our customers can believe in us to receive 100% ETO free and tested deliveries.

0 %

HIDDEN ADDITIVES

All products and product specification are showing honestly what you get. We do not use any additives and synthetics to upgrade our products and downgrade quality. If additives are used, we clearly inform about. And therefor our curcumin is natural origin and can be always approved by C14 tests.

Our branded products

nakoMIN®-C

NAKO
MIN® C

Our natural vitamin C made of amla extract (Indian Gooseberry) by a clean production using only food grade ethanol as a solvent.

NAKO®

100 %

PURE AND NATURAL

All our essential oils are natural origin and pure without blended or mixed NI oils. If you request a natural identical oil, we do rarely on just a very few like Garlic Mexico type. Please understand we are passionate for natural products.

0 %

WASTE OF RESSOURCES*

During the production of essential oils are the usage of the raw material is enormously and after the distillation or cold pressing process a huge amount of material is remaining. Our partners reuse these where possible as fertilizer for the new raw material, upcycling supplying to upcyclers for new creations and plenty more.

* cannot be made with all raw materials

100 %

EU COMPLIANT

All our essential oils, oils and oleoresins are made and compliant for the european market. Weather aflatoxins, pesticides or just CLP labelling, we go the extra mile to ensure product and regulation compliance.

Our core products

Mustard Essential Oil, natural (AITC)

Partnering with our high quality natural Mustard Seed Essential Oil to achieve >97% AITC and higher. It is planned to be able to guarantee soon also >98%, but also mixed oils can be available on request.

(AITC = Allyl-Isothiocyanate)

Paprika Oleoresin

Paprika Oleoresin, Paprika Extract , E160c,.. one of the most used oleoresins and available in various specification and at least two origins - India and China.

Pepper Oleoresin

As key spice pepper is used since thousands of years within the food industry. Various specification of black and white pepper oleoresins are possible. We do offer several origins, where India /Sri Lanka and China are the most common.

Premium Mint oils

Made in a small mint distillery we offer several and mainly tailor made mint oils from *Mentha arvensis* and *Mentha piperita*. Decide your requirements or take available specification. All mint oils are high grade quality with a strong mint odor and taste.
