# HOW WE WORK AS A BUSINESS PARTNER

## SALES DEPARTMENT

*Offers consumer-centric products based on the desires, needs and challenges of the international or local market.*

- Reviews your inquiry details, provides you with a formal invoice as well as informs you about your order and delivery status.
- Advises you in decision making to meet your market requirements.
- **Focuses on the local needs of every market with regards to culture, fragrance, taste, climatic condition, hygiene and other product requirements as well as legal aspects.**
- Assists you to finalize your product formula and label before manufacturing.
- Helps you drive faster speed-to-shelf by understanding and solving difficulties.

## LOGISTICS DEPARTMENT

*Leader in supply chain management and international logistics solutions.*

- Estimates the time and cost of delivery based on your destination or required service.
- **Handles all modes of transportation including export, import, warehousing to customized door-to-door delivery.**
- Efficiency and high standards are the key to your success and ours.

## R&D AND MANUFACTURING

*The success of our company is based on excellence in research and development.*

- Selects best available ingredients from non-GMO, sustainable sources, many of which are organic.
- Tests every raw material before and after processing.
- Ensures ingredients transparency on product labels.
- Analyses every product during and after its production process whether specifications are met.
- **Strict quality control before packaging and shipping, allowing no product defect.**

# BELDTON
