### Grades - Kwaliteiten - Qualität - Qualités

**GD** : **Top selling grade** and excellent value for money. Soft leather, even substance and clean appearance. Finished on both sides, highly absorbant. Medium weight general purpose chamois.  
**TF**: B grade, medium to light weight, may contain minor natural defect, colour variation but no holes or seams.

**Packaging** : bulk, polybag or header cards, all available in private label or one of our own brands.

**GD**: **Voor algemeen gebruik**. Zacht leder, gelijkmatige dikte en mooi uitzicht. Hoge wateropname en goed uitwringbaar. Uitstekende verhouding prijs/kwaliteit. Onze bestseller.

**TF**: Tweede keus, iets onregelmatiger in dikte. Kan kleine natuurlijke fouten en littekens bevatten, ietwat meer nerf en/of kleurvariatie vertonen. Geen gaten of herstellingen.

**Verpakking** : bulk, zakjes of kopkaart. Onder uw merk of onder één van onze merken.

**GD (Media)**: **Unsere meist verkaufte A-Qualität**. Ein Chamoisleder für alle Anwendungsgebiete einsetzbar, mittlere Stärke, schnelle und hohe Saugkraft, hervorragend im Preis/Leistungsverhältnis.

**TF (Sekunda)**: B-Qualität, mittlere bis leichtere Stärke. Diese Sortierung kann kleinere natürliche Fehler in Farbe, rauere Stellen bzw. kleine Narben aufweisen, aber niemals Löcher oder Nähte.

**Verpackung** : Unverpackt, Polybeutel oder Reiter. Mit Ihrer Eigenmarke oder unseren Handelsmarken.

**GD**: **Peau pour toute utilisation courante**. Excellente absorption et facile à tordre. Peau souple et douce, épaisseur moyenne et aspect soigné. Très appréciée et d'excellent rapport qualité/prix.  
**TF**: Deuxième choix, épaisseur plus irrégulière que GD. Peut présenter quelques défauts naturels tels que cicatrices, un peu de fleur, variation de couleur mais ni trous ni coutures

**Emballage** : vrac, en sachets ou sur cavalier. A votre marque ou sous une de nos marques.

# Dry Soft Chamois Leather

## Dry Soft Natuurzeem

### Dauersoft Fensterleder

## Peaux Chamoisées Dry Soft

Genuine Chamois Leather has unique cleaning, drying and polishing properties. Dry soft chamois, exclusively produced by J&T Beaven, adds 2 essential properties:

1. Dry soft chamois stays soft after use
2. Dry soft chamois is permanently anti-microbial

**Better hygiene:** micro-organisms making contact with the dry soft chamois are killed by (mini) electrocution. This way of controlling microbial growth will last throughout the life of the chamois.

**Longer life:** controlling bacteria and fungus that cause objectionable odours and unsightly stains results in a much slower product deterioration.

**Greater drying efficiency:** its anti microbial and stay soft properties allow the chamois to perform better over a longer period than the normal genuine chamois.

**Environmentally friendly:** Made from only renewable raw materials and fully biodegradable, the dry soft chamois can be composted when it finally wears out.

**J&T Beaven Dry soft chamois: the gentlest way to dry and shine your car.**

Natuurzeem is gekend voor zijn uitmuntende droog en glansverwekkende eigenschappen.

Het J&T Beaven Dry Soft natuurzeem, doet daar 2 essentiële eigenschappen bij:

1. De dry soft zeem blijft soepel ook na veelvuldig gebruik
2. De dry soft zeem is permanent anti-microbiëel

**Betere hygiëne:** micro-organismen die in contact komen met de dry soft zeem worden door een mini electrocutie gedood. Deze bestrijding van microbiële groei is permanent.

**Langere levensduur:** het onder controle houden van bacteriën en schimmels die vieze geurtjes en vuile plekken veroorzaken, resulteert in een langere levensduur van de zeem.

**Betere werking:** omdat de dry soft zeem soepel blijft en microbiële groei beperkt, presteert de zeem beter en langer dan een traditionele natuurzeem.

**Milieuvriendelijk:** gemaakt van uitsluitend hernieuwbare grondstoffen en volledig biologisch afbreekbaar. Dry soft zemen kunnen na gebruik gecomposteerd worden.

**J&T Beaven Dry Soft zeem: het meest aangewezen product voor drogen en opblinken.**

Echtes Fensterleder hat einzigartige Reinigungs-, Trocknungs- und Poliereigenschaften.

Das J&T Beaven Dauersoft-Leder besitzt 2 weitere Vorteile:

1. Dauersoft Leder bleibt nach Gebrauch weich
2. Das Leder bleibt dauerhaft antibakteriell.

**Eine bessere Hygiene:** Bakterien, die mit dem Leder in Berührung kommen, werden über die gesamte Lebenszeit eines Softleders durch eine mini Elektrospannung abgetötet.

**Eine längere Lebensdauer:** Bakterien- und Pilzkulturenkontrolle verhindern unangenehme Gerüche und hässliche Flecken und verlangsamen einen Produktverfall.

**Bessere Trockeneigenschaft:** Seine antibakterielle und dauerweiche Eigenschaften erlauben Softleder viel besser über eine lange Zeit zu arbeiten als ein traditionelles Fensterleder.

Umweltfreundlich: Hergestellt aus nachwachsenden Rohstoffen kann ein Dry-Soft-Fensterleder am Ende seiner Brauchbarkeit kompostiert werden.

**J&T Beaven Dauersoft Fensterleder: die sanfteste Art Ihr Auto zu trocknen und zum Glänzen zu bringen.**

La peau chamoisée est réputée pour ses capacités de sécher tout en faisant briller.

La Dry Soft, produite exclusivement par JT Beaven, y ajoute 2 qualités essentielles:

1. La Dry Soft reste souple
2. La Dry Soft est anti-microbielle

Ceci lui procure:

**Meilleure hygiène:** les micros-organismes qui s'établissent sur la dry soft sont éliminés par électrocution. Cette capacité de contrôler leur prolifération est permanente.

**Longévité:** limiter la prolifération des bactéries et champignons qui produisent mauvaises odeurs et taches, augmente la longévité de la peau chamoisée dry soft.

**Meilleure efficacité:** parce que la dry soft reste souple et limite l'activité des micro organismes, la peau fonctionne mieux et pendant plus longtemps qu'une peau standard

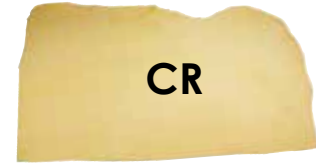

**Respect de l'environnement:** la Dry Soft est produite uniquement à base de matière première durable et est complètement biodégradable. Elle peut être compostée.

**Autostar**

**Eponge Insectes & Lavage**  
**Insect- & Wasspons**  
**Insekt- & Waschschwamm**  
**Spugna lavaggio e anti-insetti**

Enlève insectes & saletés sur parebrise, phares et carrosseries.  
 Toujours employer mouillée sur carrosserie.  
 Verwijdert insecten & vuil van ruiten, koplampen en carrosserie.  
 Op voertuig steeds nat gebruiken.  
 Entfernt Insekten & Schmutz von der Windschutzscheibe,  
 Lampen und Karosserie. Immer feucht anwenden.  
 Elimina insetti e sporco dai vetri, fari e carrozzeria.  
 Bagnare sempre la spugna prima di utilizzarla sulla carrozzeria.
