- Yarncount: 4200 dtex with 270 filaments
- Filament cross section: trilobal
- Weight per spool: +- 4,60 kg
- Tenacity: 2 cN/dtex
- Entanglement: +- 30 knots / meter
- Internal diameter of the cone: 73,2 mm
- Type of tube: cylindrical

Monofilament yarn

PA Nylon Monofilament

Diameters: 0,30 mm & 0,35 mm

Yarncounts: 750 denier & 1000 denier

Tenacity: 5,2 cN/dtex

Weight/Spool: 3 kg on DIN 250 spool

Color: Transparent

Melting point: 240 C°

About us

Belrey Fibres is an experienced partner in filament-yarns, mainly in polypropylene BCF, Polyester H.T. & nylon monofilaments. In our trading unit in Quevaucamps / Beloeil we handle first grade as well as substandard filament yarns.

We carry a large inventory and are able to deliver different types of yarn for just-in-time to our customers worldwide both directly and through a network of reputable agents and distributors. Over 75% of our turnover is exported.

TEXTILE YARNS

POLYPROPYLENE, POLYESTER, NYLON

Our expertise

The wealth of experience built up in decades in the textile industry provides the company with an in-dept understanding of your needs. Please explore our full product range: Polyester High Tenacity, Nylon and Polypropylene BCF yarns.

Our customers range from small carpet finishers to important rope producers. We assess your needs carefully in order to supply the most suitable filament yarn for your production process.

Applications

Our filaments have various applications: yarn for overlocking carpets, narrow fabrics, ropes and cordage. From 280 dtex up to 3300 dtex, we normally have all the types for various applications in flat as well as in a twisted form available.

We can produce tailor-made constructions on demand.
Please feel free to ask us about the various possibilities.

Logistic centre established in the heart of Europe

Belrey Fibres is located close to Exit 1 of the E17, European motorway, and is ideally situated for its international activities.

We are located in Mouscron (Belgium), at 25 km from Lille and at only 135 km away from Calais, and has 14.000 m² of production halls & warehouses and 540 m² of offices.

Today, Belrey has a modern warehouse of about 7.000 m² and has the capacity to keep about 2.000 tons of fibres and yarns in stock, for just-in-time deliveries to our customers worldwide.
