

**RAVAS**

# RAVAS Mobile Weighing

Corporate presentation

Mission | Creating Intelligence

**Generate data on weight and dimensions of palletized goods in the flow.**

**And use these data to optimize your supply chain or production process.**

A grayscale background image of a warehouse worker in a dark uniform and cap, pushing a pallet jack loaded with a pallet. The worker is positioned on the left side of the frame, moving towards the right. The warehouse environment is filled with various equipment and structures, creating a sense of a busy industrial setting. A grid of small white plus signs is overlaid on the entire image.

All applications, all industries

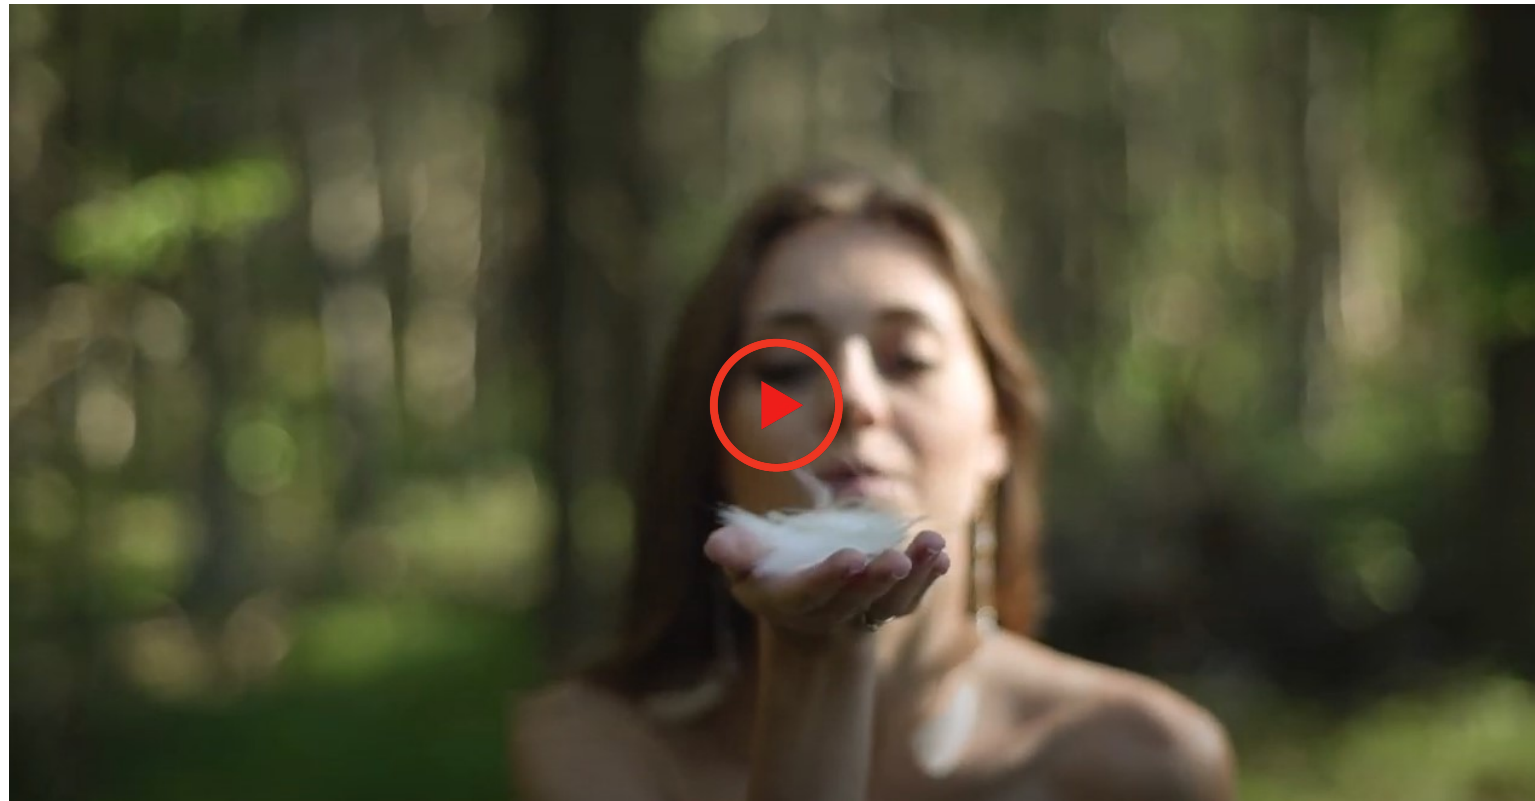

**Available for material handling and  
internal transport in logistics and industry.**

**RAVAS offers a mobile weighing solution  
for every application in every industry.**

# Creating Intelligence

## The RAVAS promise

---

# Why mobile weighing?

## Mobile weighing versus static weighing

What's the difference between weighing with or without an integrated mobile weighing system? Watch the video comparing two weighing assignments and see the savings for yourself.

# Why mobile weighing?

## Why decide integrating mobile weighing technology?

### Increase efficiency, save time and money

- Transport and weigh at the same time
- No more fixed floor scales
- Save time, space and manpower

### Full Return on Investment

- Full ROI within 3 months
- Depending on weighing needs and frequency of logistical movements

### Data communication solutions

Data on the ID, weight and possibly dimensions of your palletized goods can be exchanged with WMS or ERP systems via terminals and wireless networks.

### OIML certifications

Almost all RAVAS mobile weighing systems are optionally available with an OIML or Legal for Trade validation to invoice customers by weight.

# About RAVAS

## Some facts

---

9 sales offices or representatives worldwide

40,000 mobile weighing systems per year

Worldwide sales and service network

Technology compatible with all OEM brands

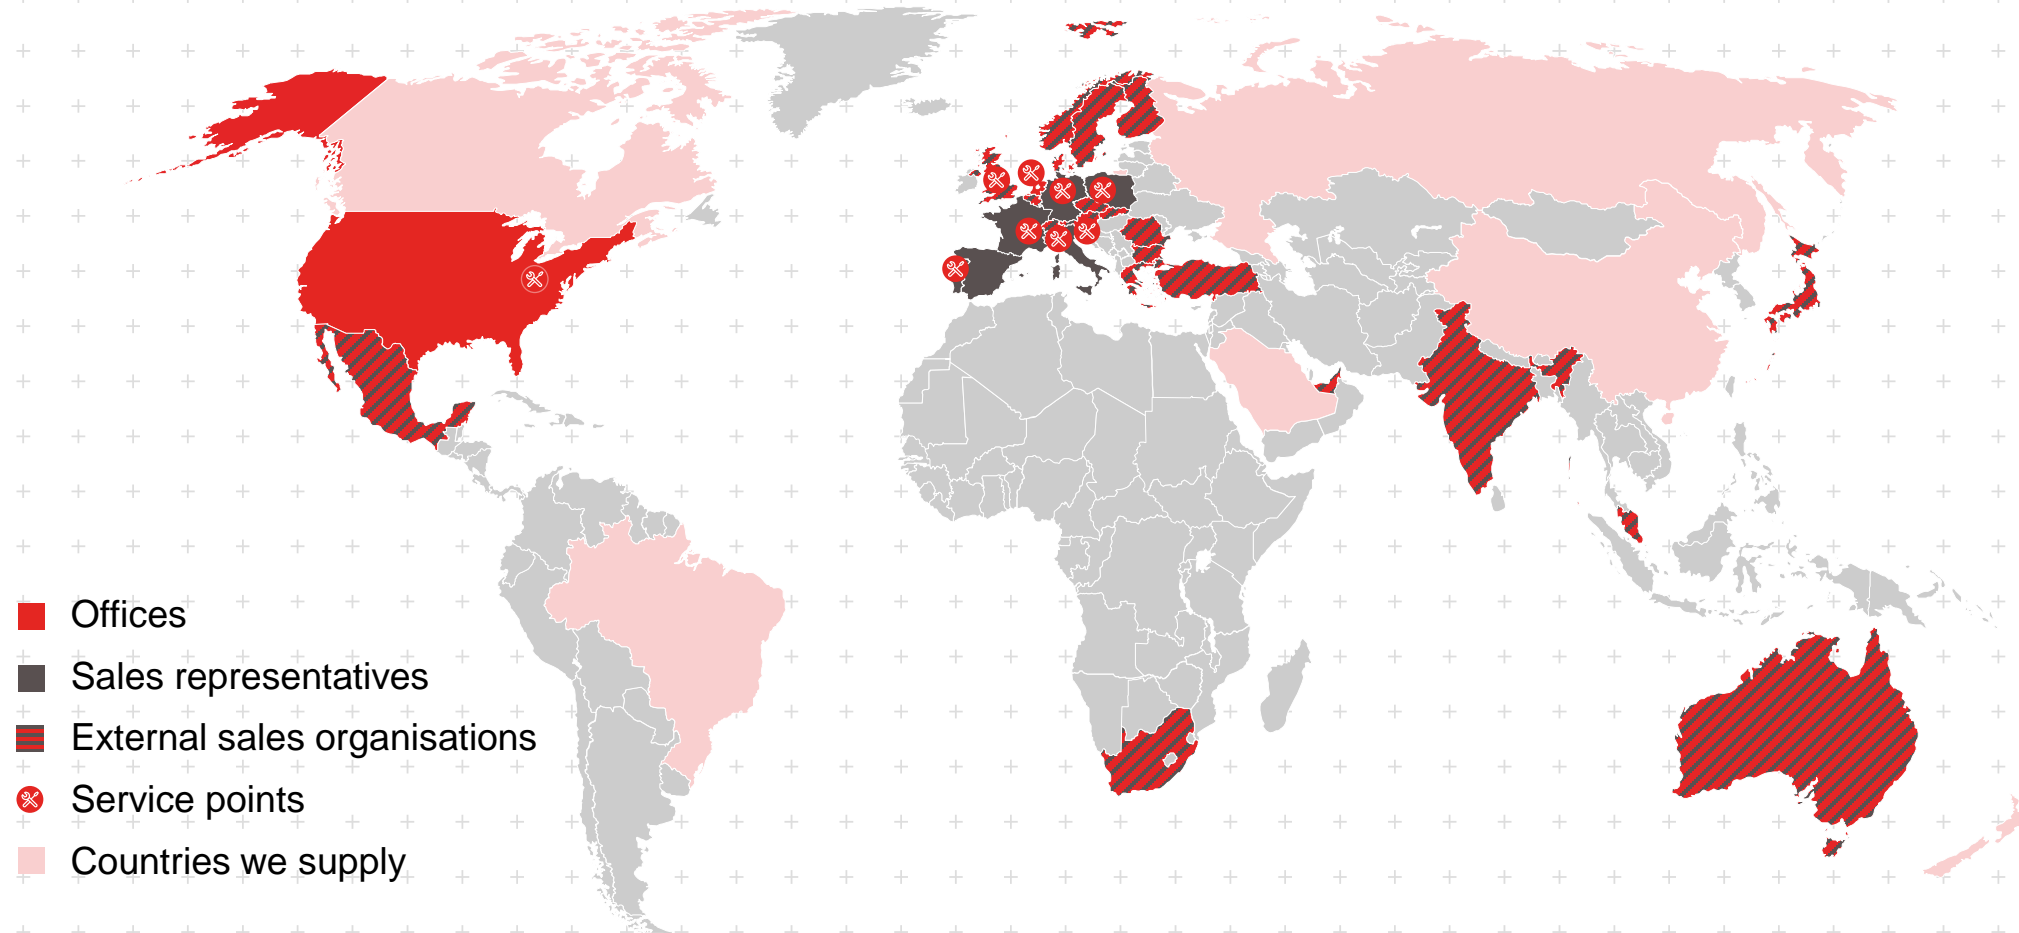

In-house professionals in sales, service, R&D and production

# About RAVAS

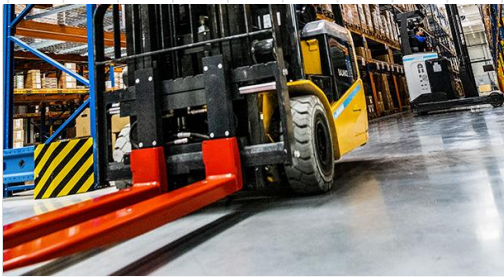

## Worldwide sales & service network

# Products

## Complete range of mobile weighing systems

### Scales for forklift trucks

- iForks
- Hydraulic scales
- Carriage plates
- Forklift safety

### Scales for electric pallet trucks

- Warehouse, order pick,  
stacker trucks
- Retrofit or factory fit

### Weighing hand pallet trucks

- RAVAS series
- ProLine series
- EXi (ATEX) series
- Stainless steel series
- Ergo series

### Data communication

- Efficient processing and  
management of data
- Integration of data into  
TMS, WMS or an ERP  
system

# Solutions

## Supply chain and production optimization

### **RAVAS** Pick by Weight

#### Order picking

- Less picking errors
- On the spot correction
- No more final checks
- 100% control
- Cost reduction
- Short ROI

### **RAVAS** Measure in Motion

#### Cross docking

- Check weights and dimensions
- In motion weighing
- Dynamic dimensioning
- Including data communication

#### More solutions

- Incoming goods
- Shipping weights
- Explosion proof
- Piece counting
- Batching and dosing
- Filling
- Stock control

# Service

## RAVAS worldwide service network

---

### Calibrations or OIML verifications

RAVAS has been certified to do initial verifications and recalibrations of OIML scales.

### Service requests or RMA

Require service or technical support? You can rely on our worldwide service network.

### Maintenance contracts

Prevent incorrect weighing data and minimize down time with a RAVAS maintenance contract.

### Warranty

RAVAS offers a 1 year warranty period on mobile weighing systems and 3 months on batteries.
